WE OFFER...

State of the art Teak wood floors for multipurpose indoor sports courts. We are pioneers in wooden flooring for shuttle, gymnastics and squash courts. We also support wide range of wood varieties as per the customer's choice and specifications.

We employ the 'tongue and groove' wooden flooring system, the latest in technology, that guarantees a world-class finish. These wooden strips are anchored with imported 'L' cleats to the runners leveling the floor-fixed with self-threaded concrete screws imported from Germany and Singapore. We use water proof glues specially made to match our requirement. The final leveling is achieved by drum sanders and finished with polyurethane polish from Sirca, Italy.
